"Currency is now a drug on the market," says an exchange. "What market, pray?"

Carrie Nation refused to smash a saloon in San Antonio, Texas. Carrie must have reformed.

And not an Arizona paragrapher exclaimed: "Get there, Ely!" when Governor Kibbey appointed the new territorial auditor.

When news is scarce, Governor Sparks of Nevada is censured by the president. He ought to be a full fledged member of the Ananias club by this time.

The New Orleans police inspector who took a couple of shots at the editor who roasted him for being a blackguard and bully, showed that he was also a poor shot.

According to a British medical journal, lying is often the result of acute indigestion. It naturally follows that a man with appendicitis will steal, or commit murder.

Territorial papers are devoting a good deal of space to telling their readers how fence posts are made more durable. Politicians are undoubtedly reading the matter with great interest.

British goods are being boycotted in Shanghai. The boycotters are probably ignorant of the recent decision handed down by a learned justice of the District of Columbia.

Mesa has a ball team and is willing to tackle the war horses of Globe. A defeat at Globe's hands would be great advertising for Mesa, who seems to realize the equalizing effects of controversy.

Globe mining stocks that are listed on the Boston exchange seem to be leading the advance movement in copper shares, just as the Globe district is leading other mining districts of the southwest.

A noted astrologer predicts that on July 16, next, the United States and Japanese fleets will meet in mortal combat at a certain point in the Pacific ocean and that the entire Japanese fleet will be sent to the bottom of the said ocean. Oh, splash!

Judging from the press reports, New Mexico is going to make a hard stab for statehood, the house committee of congress on territories having set a date for a hearing of the sister territory's claims. We sincerely hope that New Mexico gets what she is after, if for no other reason than that Delegate Bull Andrews may write senator before his name. Several years ago when Bull first became prominent in New Mexico he boasted that he would be a United States senator before he died and he is getting old now, hence our desire to see New Mexico attain statehood.

FIGHTING HIGH FREIGHTS.

Phoenix Business Men Decide on a Plan to Raise Campaign Funds.

PHOENIX, January 16.—For two hours last night the members of the Maricopa County Commercial club discussed the question of assessment to defray the expenses of the organization in the fight it is making to secure better freight rates in and out of Phoenix.

After a dozen different suggestions it was decided to fix the initiation fee for each member at \$2.50, and to levy assessments to raise funds on each shipper according to the amount of freight he receives and sends out.

Man Sentenced from Fairbank Gets His Liberty from Judge Doan On One of the Most Peculiar Pleas Ever Recorded.

One of the most peculiar pleadings set on record in the district court of Cochise county for some time was placed on file yesterday in the affidavit of Thos. McCallish who was applying to the court for a writ of habeas corpus, says the Bisbee Review. The second paragraph reads as follows:

"Petitioner further alleges that he was on or about the 26th day of December influenced by the occasion of the anniversary of the birth of our Lord, the Saviour, to an unusual feeling of keeping peace on earth, and good will toward all men; so that in response to the general impulse that pervaded the good people of the village of Fairbanks, toward generosity and charity to all mankind, and being full of the milk of human kindness, did unwittingly and without premeditation or intention absorb and imbibe certain brands of Fairbanks libations at the numerous and repeated invitations of his friends and neighbors, to such an unwonted enthusiasm and exhilaration; whereupon, a certain peace officer not having the fear of God in his heart, and being influenced and moved by a desire to show his authority and subdue the enthusiasm of this petitioner did arrest and take this petitioner before the said justice of the peace on a charge of disturbing the peace."

"Petitioner admits that he was slightly intoxicated at that time, but denies that he was disturbing the peace in any manner, and further alleges that immediately after being brought before said justice of the peace was assaulted and knocked down with a six-shooter then and there held in the hands of said justice of the peace, and was thereupon without any further proceedings promptly sentenced by said justice of the peace to pay a fine of two hundred dollars or in default thereof to be imprisoned in the county jail at Tombstone for a period of two hundred days. That being unable to pay said fine, he was by said justice committed to the custody of said John F. White, sheriff, with whom he now abides."

"Petitioner further alleges that said sentence is in excess of and beyond the jurisdiction of said justice of the peace to impose under the law, and therefore alleges that the same is void."

It is needless to say that the writ was granted when the case was called before Judge Doan and the prisoner went on his way rejoicing, and resolved that he will not hereafter spend his future Christmases in the village of Fairbanks, as he believes that the officers of the settlement do not possess the proper friendly feeling toward all humanity that they should have at that time of the year.

The finest Coffee Substitute ever made, and recently been produced by Dr. Shoop, of Racine, Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute" says the doctor. "Health Coffee" is really the closest Coffee Imitation ever yet produced. Not a grain of real Coffee in it made from pure toasted cereals or grains, with malt, nuts, etc. Really it would fool an expert—were he to unknowingly drink it for Coffee. Sold by Moorehead & Lunn.
